Orr was employed as office secretary in charge of the free information service available to tourists, visitors and other interested persons. It was announced that starting in November, the office will be open throughout the coming season.

The group voted to sponsor a benefit barbecue on the Legion grounds on Thanksgiving eve, Nov. 28, prior to the football game on Lair Field between the Pahokee Blue Devils and the Belle Glade Golden Rams. Ladies of the Auxiliary will assist with the barbecue and receive 25 percent of the proceeds. J. W. Guthrie was appointed in charge of arrangements. Plans were also made to sponsor a Thanksgiving turkey shoot Nov. 24-26, with Melvin Spooner in charge.

At the conclusion of the business session, Cecil Gray led the group in a discussion of the proposed Amendment No. 1 to the Florida Constitution to be voted on in the Nov. 4th election.

Council Talks Of Drainage Problem

The need for improving drainage facilities in the southeastern residential section of Pahokee was discussed by members of the City Council at a regular meeting Monday night. Each of the six upper grades at Pahokee Senior and Junior High School are sponsoring candidates in the "penny a vote" contest to name the 1952 king and queen for the PTA Halloween Carnival to be held on Lair Field this Friday night.

In the race for regal honors are Pat Kumer and Milton Wilson, twelfth grade candidates; Joan McKenzie and Roy Spooner, eleventh grade; Hazel Chaney and Theron Rogers, tenth grade; Annette McIntosh and Buddy Parker, ninth grade; Betty Ann Rainier and David Simmons, eighth grade; Gayle Johnson and Glen Levins, seventh grade.

The contest will end Friday evening prior to the start of the carnival. Blue Devils Play Okeechobee Brahmas

There is not much we can report on the Pahokee Blue Devils this week except that Coach Webb Fell took advantage of some fairly good weather to give his men good workouts Monday and Tuesday afternoons in preparation for their game with the Okeechobee Brahmas on Lair Field Thursday night which was played too late to be covered in this week's issue of The Everglades News. Fell was of the opinion it would be a hard-fought game but he believed his men had the stuff to win it.

The Pahokee-Fort Pierce game, scheduled for Friday night, Oct. 24, was postponed because of excessive rains at Fort Pierce and will be played there Friday night, Nov. 21, which luckily was an open date on the schedule of both teams.

Sugar Harvest Is Started Today

The harvest season for Florida 1952-53 sugarcane crop is scheduled to open today.

Extremely wet weather delayed the start of the harvest season as fields were too wet for operations, but the cane is in splendid shape and no storms have developed that harmed the crop this year.

Other crops in the Glades area have not been so fortunate as heavy rains have flooded truck fields destroying the newly planted crops. The entire Everglades is flooded as a result of excessive rains, pumps are working around the clock and if the rains cease, planting will get underway as soon as the land is in condition to work.

Cinematic Chatter

By Malcolm Miller

Hello everybody! There's an actor out in Hollywood one never hears too much about, yet he is one of the most reliable artists in filmdom. He is Anthony Quinn. . . A quite sort of chap, but a very clever boy. Although Anthony has garnered four nominations for the Academy Award, the actor paradoxically remains virtually undiscovered in Hollywood. A big, dark handsome man with an Irish name and the look of an Aztec Indian chief, the Mexican born star began to act in silent pictures when he was eight. Quinn isn't disturbed by Hollywood's failure to make him a full-fledged star in all these years; he's still in his early thirties, despite a career that encompasses many years and many pictures. Quinn graced his temples for "The Brave Bulls" and has then graced in his latest picture "The Brigand." Although Quinn received Academy Award nominations for his acting in "The Plainsman", the "Black Gold", "The Ox-Bow Incident" and "Guadalcanal Diary", the stage really established him

as a name. He took the lead in "A Streetcar Named Desire" and played the role on the road for a solid year and a half more, after a six-months stay in Chicago. So it can be said the stage first made him a star. Anthony is a standard character actor, good to the last line wherever they choose to put him. He has a beautiful home in Hollywood, loves to entertain and is considered a grand host and a "real trouper" on the set among his fellow troupers. I for one would like to see Anthony starred in his own piece on the screen. See you at the movies—Mal.

Cattlemen Will Name New Officers

OCALA — Cattlemen from all over Florida will be here November 12-14 for the Florida State Cattlemen's Association—first held here since 1938—according to Elbert Zetrouer of McIntosh, president of the host Marion County Cattlemen's Association.

Election of a new president will be one major item of business, and speakers will include Dan McCarty, Florida's next governor, and Sam C. Hyatt of Hyattsville, Wyoming, president of the American National Cattlemen's Association, with which FSCA is affiliated.

Schedule calls for directors to meet at 3:00 p. m. Wednesday, November 12 at the Marion Hotel, convention headquarters, with the first membership business session to begin at 9:30 a. m. Thursday, November 13. Tours of Rosemere Farm and Swift and Company are scheduled during the afternoon, and many Marion County purebred breeders are holding open house, Zetrouer said. A barbecue dinner at the Southeastern Pavilion and a dance at the Marion will conclude the day's program.

Business session Friday morning, starting at 9:00, will include election of a successor to State President Cushman S. Radabaugh of Orlando, who has served the maximum two years allowed by association by-laws. Convention will adjourn shortly after Noon on Friday, Zetrouer said.

The largest attendance in history is expected for the meeting, due to the increase in membership and the convenience of Ocala to a number of the newer affiliated county associations. This year, there are a record 12 months, new associations have been formed in Baker, Flagler, Jackson and Okaloosa Counties, and groups in Alachua and Gilchrist Counties may also be affiliated before convention time. Only three counties in southern and central Florida lack cattlemen's associations as of now, Zetrouer said — Citrus, Hernando and Monroe—and officers are pleased with the growth evident in the northern and western counties.

All members of each of the affiliated associations has a vote at association conventions. Business in between convention is handled by the board of directors composed of a director from each local association.

Joint Meeting For Two Lions Groups

Do you have Series E Defense Bonds coming due this year?

Here's a money-earning opportunity for you

Now—a new law lets your maturing Series E Bonds go on earning for you ten years longer! And you don't have to do a thing!

ARE YOU one of those patriotic citizens who began buying—and holding—Series E Bonds ten years ago? Now your government is going to reward your faith with a chance for your bonds to earn extra money—over and above what you'd expected!

According to the bill passed by Congress last spring, it is now possible for your United States Series E Bonds to continue earning interest ten years longer than was originally planned.

Therefore, if you started an automatic bond saving plan, and helped your country at the same time, you can look forward to ten years more of effortless earning from the bonds you bought!

For example, a Series E Bond which cost you \$18.75 in 1942 will pay you \$25 in 1952. But

if you hold that bond ten extra years, until 1962, it will pay you \$33.33, an average interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You need not exchange the bonds you have. You need not sign any paper, fill out any form. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But, unless you really need the cash you're much better off to hold your bonds; they are a paying method of saving. Bonds are safer than cash! Cash is too easily spent on nonessential things. And if you lose or accidentally destroy it, you're out that much money. But when you have cash in Defense Bonds, you're more apt

to hold on to it. And if your bonds are lost or destroyed, the Treasury will replace them for you at no cost or loss to you.

The cash you have in bond savings is safe and solid; and it's steadily growing toward a sum big enough to buy something really worth while when the proper time comes—a home, a business, a retirement fund, an education for your children.

So if you have bonds coming due, take advantage of this new offer of your government—just sit back and let them go on making money. Meanwhile keep adding to your savings by buying more United States Defense Bonds regularly—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—

The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semiannually at the rate of 2½% per year. For full details, ask at any Federal Reserve Bank or Branch.

Here's how Series E Defense Bonds earn the first 10 years

MONTGOMERY, Ala. — Fire Frolic, annual occasion for re-affirmation of the ideals of Huntington college, will be held in the natural amphitheater on the campus November 6. This autumn festival of fire is each year an impressive ceremony in which the students individually, as classes and as a student body pledge their loyalty to Huntington.

The pageant centers around a fire symbolic of the spirit of Huntington College. The students all wear white and carry candles which are lighted from a torch representing loyalty to their Alma Mater.

Taking part in the ceremony this year from Canal Point is Gloria L. Stuart, daughter of Mr. and Mrs. Clifford L. Stuart.

Icemen In Business Despite Refrigerators

TAMPA—Don't put the iceman on ice, say Florida dealers meeting here for their 27th annual convention at the Floridan Hotel.

Despite the fact that the refrigerator has made the iceman almost obsolete around the house, Tampa ice manufacturers chalked up a cool million dollars worth of business last year. They operated ten plants with a total ice manufacturing capacity of more than 700 tons, providing a livelihood for more than 300 families.

Throughout the nation more ice

is being sold in 1952 than in 1920 when the mechanical refrigerator dealt a hard blow to the industry. The reason seems to be that ice-men took a realistic look at the situation, put research and selling skill to work and crashed new markets.

They went after the food growing and distribution fields first and proved that practically any fruit or vegetable can be brought to market with just-picked freshness if it is "hydro-cooled," or bathed in ice-chilled water. In Florida, that means plenty of ice customers among producers and marketers of vegetables and fruit.

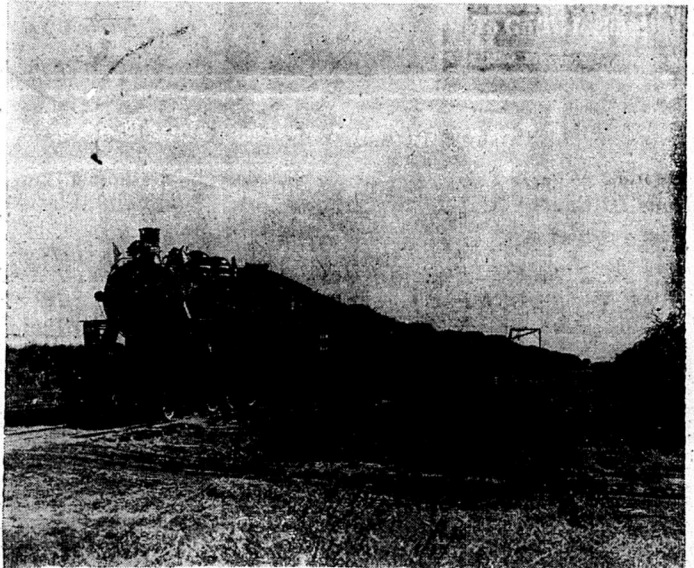

Ninety-nine per cent of all railroad refrigerator cars also use ice, with a refrigerator car using as much as ten tons of ice on a cross-country trip.

Webster Cattle Sale Scheduled Nov. 7th

PENSACOLA — Fifty head of cattle selected from about 1,400 head owned by 15 cattle raisers from all sections of the state are entered in the Aberdeen-Angus show and sale the Association is holding November 7 in Webster.

"This shows how much progress has been made in this industry in Florida, mainly in the period since World War II, as those 1,400 head represent an investment of about \$1,000,000.00" he said. "Members of the Aberdeen-Angus Association realize this is only a beginning and eventually this business will represent an important economic

Christian Science Group Of Canal Point

Spiritual liberation from enslaving sin will be explained at Christian Science services next Sunday. "EVERLASTING PUNISHMENT" is the subject of the Lesson-Sermon.

A verse from Proverbs (13:21) supplies the Golden Text: "Evil pursueth sinners; but to the righteous good shall be repayed."

Passages from the Bible (King James Version) include the prophet Ezekiel's statement: "Have I any pleasure at all that the wicked should die? saith the Lord God; and not that he should return from his ways, and live?" (Ezekiel 18:23).

Readings from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The way to escape the misery of sin is to cease sinning. . . . Fear of punishment never made man truly honest. . . . Through human con-

sciousness, convince the mortal of his mistake in seeking material means for gaining happiness" (p. 327).

A NOOSE Around Your Neck

(FOR 30 YEARS)

Constitutional Amendment Number 1 Would Create New Bureaucracy Destroy Home Rule, Deny Teachers Pay Raise

A move is underway, voters of Florida, to "slip one over on you" on November 4. Constitutional Amendment Number 1, many of our State's best lawyers and tax experts say, is "as full of holes as a piece of Swiss cheese." Better examine these points . . .

- (1) Control over school moneys would be in the hands of the State Board of Education. This would destroy "County Home Rule."
- (2) The proposed Amendment makes no provision for teachers' salary increases. In fact, it threatens increases already promised.
- (3) The Amendment would inspire wild and dangerous spending. It might encourage corruption.
- (4) Passage of this Amendment will mean that YOU — as a Florida voter — will have absolute no control over the greatest proposed spending ever undertaken in Florida — up to \$24,000,000 a year for 30 years if the Legislature should decide to absorb — and it could — all of the Motor Vehicle Tax Fund. Over a period of 30 years — which is the time covered by the Amendment — this would amount to \$720,000,000.
- (5) Home owners now enjoying homestead exemption from ad valorem taxes might again become heavy payers of school taxes. With this vast spending program in effect, there will be a scramble for new sources of revenue. This might force another amendment repealing homestead exemption.
- (6) Tax experts believe that passage of this amendment will bring about a higher sales tax, a higher fee for your license tags, higher taxes on gasoline, food, clothing — virtually everything. And less money for our state's institutions, our schools, and for State employees . . . including teachers!

This means more money to you!

**NOW YOUR U. S. SERIES E BONDS CAN EARN INTEREST
10 EXTRA YEARS**

ALL YOU WISE and patriotic people who bought United States Series E Bonds ten years ago and have held them can benefit by this new law! For according to this law the bonds you expected to mature finally in 1952 can now continue to earn interest every year for ten more years—till 1962—without your even lifting a finger!

To get this extra money, there's absolutely nothing you have to do. Just hold your bonds and let them go on earning!

If you wish, you may still cash any Series E Bond at any time after you've owned it for sixty days. But you'll be better off to hold your bonds, just as you're better off to hold savings in any form.

First of all, as long as you don't cash your bonds, you don't have to pay income tax on the interest they earn. In the second place, cash in the pocket melts away fast—often with little or nothing to show for it. But cash in bond savings is always there—growing steadily toward the big sum which can buy something really worthwhile. . . . And remember—the interest rate on Series E Bonds has been increased to 3% compounded semi-annually, when held to maturity.

So if you have bonds coming due, why not take advantage of your extra-income opportunity? Just sit back and let them go on mak-

ing more money for you. And meanwhile keep adding to your cash savings by buying more U. S. Defense Bonds regularly—through the Payroll Savings Plan where you work. It's the easy, systematic saving plan that's so helpful because it lets you save before you even draw your pay. Thousands on the Plan say it's the one sure way to save.

3 NEW MONEY-MAKING OPPORTUNITIES FOR YOU!

*New Series H, J, and K
Defense Bonds pay 2.76% to 3%!*

If you want to get the interest on your bonds in the form of current income, or if you want to invest more than the annual limit for E Bonds, ask at any Federal Reserve Bank or Branch about these new bonds:

SERIES H. A new current income bond, available in denominations of \$500 to \$100,000. Sold at par. Matures in 9 years 8 months and pays approximately 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Annual limit, \$20,000 maturity value. Issued only by Federal Reserve Banks and Branches and at the Treasury.

SERIES J. A new 12-year appreciation bond, available in denominations of \$25 to \$100,000. Sold at 72% of par value. Pays 2.76% compounded semiannually if held to maturity. Annual limit, \$200,000 issue price jointly with Series K Bonds.

SERIES K. A new 12-year current-income bond in denominations of \$500 to \$100,000. Pays interest semiannually by Treasury check at the rate of 2.76% per annum. Sold at par. Annual limit, \$200,000 issue price jointly with Series J Bonds.
